

Did you know?

Solar Kits help share the Gospel through media where there's no electricity.

How much do they cost?

The Solar Kit includes solar panels, speakers, a battery, a projector, and a few other accessories. They cost \$1,000.

What should I do?

You and your friends can bring money you'd like to give in a special Solar Kit bank.

Solar Kit

www.gnpi.org/solkits

Where are they sent?

Since 1981 Christian workers in nearly 50 nations have received more than 500 Solar Kits.

How do they work?

A battery is charged by the sun to power a small media projector.

What difference do they make?

Recently an evangelist in Uganda reported that seven people were baptized after watching media on the Solar Kit. There are hundreds of stories like this.

Help take the Gospel around the world!
