

## Instructions

1. Print on cardstock. Make sure the print settings are selected to fill the entire page.
2. Cut the outline of the Solar Kit bank. Don't cut on the white dotted lines.
3. Fold the Solar Kit on the dotted lines at the black hinges.
4. Cut on the black dotted line around the white coin slot.
5. Continue to fold on the dotted lines inward so that the image is facing out. All tan tabs should be folded inside the bank.
6. Use invisible tape on the joints to complete your Solar Kit bank.
